2. [redacted] from [redacted] Senec northward to Trencin via Cifer, Trnava, Drahovce and Piestany. [redacted] traveled on an all weather, hard surfaced road (924) which was considered to be a main highway. There was very little traffic. This road was in good condition and was three cars wide. 25X1
3. The terrain over which the road ran was flat. The road was crowned for easy drainage. The curves were shallow along this route. The road was constructed for heavy usage. 25X1
4. [redacted] One bridge was located in Cifer. It was a concrete constructed bridge. The bridge was over two lanes wide. The second bridge was located at Bucany. It was also concrete constructed and was over two lanes wide. The third bridge was located at Piestany. This was a concrete-steel bridge which was in good condition and also over two cars wide. All three bridges were in fairly good condition and were able to absorb heavy traffic. 25X1
